5” x 5”
There are two kinds of pies in this quilt, for the purposes of these instructions I will refer to them as “Whole” (A) and “Sliced” (B). Please refer to the Assembly Diagram on the last page to see how many Whole or Sliced Pies you will need to make, and which solids and patterned fabrics are used in each. *All seams are 1/4”.*

1. For Whole Pies, take an 8.5” patterned square and place one 2.5” solid square on each of the four corners. Draw a line diagonally as shown and sew directly on this line. Trim, leaving a 1/4” seam allowance and press open.

2. Sew the short strips (C) to the top and bottom of the block. Then sew the long strips (D) to the left and right.

3. Place one 3” square of background low volume fabric on each of the four corners and follow the instructions in *Step 1*, paying attention to the orientation of the fabric design if direction is important.
4. For Sliced Pies, place one 5” square of patterned fabric RST (right sides together) with one 5” square of solid fabric and draw a diagonal line from corner to corner. Pay attention to orientation when drawing your diagonal line if fabric is directional. Sew 1/4” away from this line on both sides, cut apart and press open. Trim blocks down to 4.5” square. You will have two HSTs (half-square triangles), but you only need one, so put the extra block aside to use on the back or save it for another project.

5. Sew one of the HSTs to a 4.5” square of coordinating patterned fabric (A) then sew that piece to a 4.5” x 8.5” piece (B) as shown below. Again, pay attention to the orientation of the “slice” when sewing together, they are not all positioned the same, use the Assembly Diagram on pg. 6 for reference.

6. Follow Steps #1 - 3 on the previous page to complete the Sliced Pie block.

Assembly Diagram

To assemble the quilt top, sew Pies together in rows using the appropriate sized pieces both inbetween the pies and on the row ends as marked below. Then, piece together the long strips inbetween the rows to make pieces that are 54.5” long. Now simply sew the strips and rows together as shown in the diagram below.

Quilt and bind as desired, and you’re done!
