1/4” SEAM ALLOWANCE CHECK

Even if you use a 1/4” foot, your seam allowance may not be accurate!

To check if your seam is accurate, cut three 11 1/2” x 3” pieces from scrap fabric.

Sew the pieces together along the 3” side, using what you believe is a 1/4” seam.

Press away from the center piece.

Measure.

The center piece should be exactly 1” wide.

If, when you measure, the center is less than 1”, your seam allowance is too large, so move the needle to the right.

If it’s more than 1”, your seam allowance is too small, so move your needle to the left.

Refer to your machine owner’s manual for instructions on changing your needle position.

Repeat the test until your center strip measures exactly 1”.

NOTE: Where you place your templates along the stripe will determine the final look of the block. The image on the cover uses part of the darkest red stripe, and the image above does not. You can choose the final look yourself.

1. Cut out template A and tape pieces together.
2. Cut fabric in half along the center fold.
3. Apply double-sided scotch tape to the back of the template.
4. Place template on fabric as shown. (I do not advise cutting double layers of fabric here)
5. Place the 1/4” line on your ruler along the seam line of the template.
6. Cut, and repeat for all lines on the template.
7. Repeat these steps until the required number of pieces are cut.
Light Blocks:
Make 5
8. Stitch eight light template A pieces together in pairs. Stitch two pairs together to create halves.
9. Stitch the halves together.
10. Add one fabric C 93/4” triangle to each corner. Square block to 301/2”.

Dark Blocks:
Make 4
11. Stitch eight dark template A pieces together in pairs. Stitch two pairs together to create halves.
12. Stitch the halves together.
13. Add one fabric C 93/4” triangle to each corner. Square block to 301/2”.

Assembly:
14. Use cover image to stitch blocks into rows, then stitch rows together.

Finishing:
15. Layer, baste and quilt as desired.
16. Use ten fabric B 21/2” x WOF strips for binding.
