¼” SEAM ALLOWANCE CHECK

Even if you use a ¼” foot, your seam allowance may not be accurate!
To check if your seam is accurate, cut three 1½” x 3” pieces from scrap fabric.
Sew the pieces together along the 3” side, using what you believe is a ¼” seam.
Press away from the center piece.
Measure.
The center piece should be exactly 1” wide.
If, when you measure, the center is less than 1”, your seam allowance is too large, so move the needle to the right.

Please read through entire pattern before beginning
