Block 1A and 1B are made of one full square of Color C (6 blocks = 1A)/Color D (12 blocks = 1B) and (2) half-square-triangle cut on the diagonal. Let's use the 2-at-time method to make the half-square-triangles:

- 1) Crease the back of each color A square with a diagonal line on the back.
- 2) Lay (18) pairs of (1) color A + color B squares to make 36 half-square-triangle blocks (**Fig 1**). Pin and sew using 1/4" on each side of the mark/crease previously made. (**Fig 2**).
- 3) After sewing, cut each block in half on the creased line. Press all seams to the darker color. Trim blocks to 5" square. Align the diagonal line of the block with the diagonal line on the ruler and trim.
- 4) Cut each half-square-triangle block diagonally in half where the yellow line is on **Fig 3**.
- 5) **For block 1A, use (6) squares of color C, one for each block. For block 1B, use (12) squares of color D, one for each blocks.**
- 6) Observing the correct orientation (**Fig 4**), sew first 2 opposite corners, open and press towards the corners, then sew the remaining opposite corners, press in the same manner.
- 7) Repeat the process to make (6) Block 1A (**Fig 5**), and (12) Block 1B (**Fig 6**). Each block should measure 9 1/2" unfinished.

Block 2 is made of one full square of Color G + (2) color F square cut once diagonally, and (2) color E cut once diagonally.

- 1) On each side of color G squares, sew (1) triangle of color F with the long base edge on the side of the central square. First sew two opposite sides, open and press towards the triangles, then sew the remaining opposite sides, and press in the same way.
- 2) Sew the outer triangles of fabric E in the same way as the fabric F triangles were sewn.
- 3) Repeat the process to make (18) Block 2, all measuring 9 1/2" unfinished.

Block Assembly:

Follow the chart below to piece each row, then sew the rows together. Press each row seams to opposite sides, then press the rows seams open.
