QUILT-AS-YOU-GO PIECING:

This quilt is sewn using the "flip and sew" method. Each strip is sewn on the foundation of the quilt, sewing through all layers, including backing. This means the quilt is quilted when you are done!

1. Lay the backing on a flat surface, wrong side UP. If you are using batting, place the batting centered exactly on top of the backing. Use spray adhesive to hold batting to backing.
2. Smooth out all wrinkles. Fold in half keeping the 60" wide horizontal. Mark the center of the batting/backing on the fold.
3. Fold the 11-1/2" Fabric D strip in half lengthwise and center, right side up, on the marked center of batting/backing. Use spray adhesive to secure in place. See diagram on next page.
4. Place a 5" Fabric C strip, right sides together, on top of Fabric D, aligning the raw edges and pin well. Use a 1/2" seam allowance to sew the strips to the batting/backing. You will sew through the strip you pinned, the center strip, the batting (optional) and backing.
5. Smooth the strip, right side up, and spray baste the wrong side to batting/backing to secure in place. Repeat step 4 on the other side of the center strip.

6. Continue to sew strips, alternating sides and working out from the center strip. Repeat pinning and sewing until all strips are sewn. Trim edges even so quilt is approximately 57" x 57". Baste the outer edge before you attach binding.

7. Sew 2" binding strips together, end to end, and bind.
